(Examiner/SPE Signature) (Applican	t/Applicant's Representative	Signature – if appropriate)	

Continuation of Substance of Interview including description of the general nature of what was discussed: the Examiner initiated interview in order to clarify the subject matter of the disclosure. It appears that the terminology used in the application is not a conventional terminology of the art. The Applicants will submitt a reference, which justifies the usage of a term "absorption energy" instead of "intensity" for IR spectra..
